

Robotics Summer Day Camp

Sponsored by the award winning DCHS Tribe Tech Robotics Team

The robotics camp will give participants a basic introductory into the design, construction, and programming of a robot. Students will work with a team to create a robot that they will compete in an open, live demonstration held on the final day of camp. Students will also view demonstrations of various robotics applications. Participants will explore teamwork, collaboration, and leadership while learning to appreciate science and technology.

No prior experience necessary!

Space is limited!

Participants will explore mechanical design, programming, and critical thinking as they go through the engineering design process. There is a live demonstration for students to show off their robot and programming at the end of the week

Camp dates June 10th-14th, 2024

Registration Fee is \$125.

A T-shirt is provided for those who sign up by May 1st.

Registration Deadline:

May 31st, 2024
